

RLT1520 - 15" LCD TV

The RLT1520 is a stunning 15" LCD TV, which can be positioned almost anywhere in the home. It is both highly portable and versatile as it weighs 5.5Kg and is VESA wall mountable. This model has many video inputs including, TV Tuner, DVD component and S-Video for TV and DVD viewing, and is equipped with analogue RGB for using a PC, whether playing games or surfing the net.

The crystal clear images are enhanced by a contrast ratio of 400:1 and a response time of 16ms to enable pin sharp images when viewing moving video footage. The RLT1520 also offers a crisp audio sound that adds an extra dimension to the rich entertainment experience of the RLT1520. You really can have the best of both worlds, a TV and a monitor all for great value.

RLT1720 - 17" LCD TV

The RLT1720 is an exquisite 17" LCD TV, which delivers unparalleled picture performance and can be positioned almost anywhere in the home. It is lightweight, weighing 6.5Kg, and is VESA wall mountable, making it portable and versatile. A response time of 16ms coupled with high contrast ratio and brightness, of 400:1 and 400cd/m² respectively, results in clear pin sharp images.

The RLT1720 also boasts a multitude of inputs ranging from a TV Tuner to Analogue RGB to DVD component, catering for home leisure, or office use. High in quality and exceptional in design, the RLT1720 is a must-have display.

RLT2000 - 20" LCD TV

LCD TV technology is moving fast, and the RELISYS RLT2000 is leading from the front.

You won't see a sharper, clearer LCD picture, thanks to an excellent response time of 16 milliseconds and high brightness of 500cd/m².

Better still, this phenomenal picture quality is accessible via a wide range of inputs, so you can enjoy brilliant viewing in just about any video application. The RLT2000 also gives you the flexibility of PIP (Picture in Picture) presentation. There's NICAM stereo too, for rich, responsive sound that's well and truly up to speed with the RLT2000's quality of vision.

If you want to see what's happening at the cutting edge of LCD TV development, you've got to be looking at the RELISYS RLT2000.

RLT3000 - 30" LCD TV

The RELISYS RLT3000 is a 30" LCD TV that incorporates the latest technology to deliver optimum visual performance. The sleek design and powerful speakers, combine to make the RLT3000 truly inspirational!

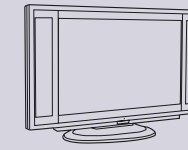

This 30" LCD TV incorporates progressive scan capability ensuring the clarity of image, and has digital 4H comb filter ensuring excellent colour reproduction. All this guarantees that the RLT3000 transforms pictures into stunning reality and breathes life into all viewing.

With numerous inputs including two SCART inputs, a TV Tuner and a DVD Component, more or less any video application can be run through the RLT3000, so even camcorders and game consoles can be enjoyed on the big screen.

Key Benefits

High Performance

The stylish RELISYS LCD TVs couple exceptional brightness and contrast levels with ultra fast response times to breathe life and energy into all images.

Versatility

The RELISYS LCD TVs have many inputs and cater for numerous video applications from TV and camcorders, to game consoles. They range from RF TV Tuner to DVD component.

Features

The LCD TVs are highly versatile, not only in terms of available inputs, but they are also wall mountable. Picture in Picture function comes as standard allowing you to keep an eye on any breaking news stories or the latest sports action whilst working on your PC. All the models in our range are equipped with Fastext Teletext.

Space-Saving and Cost-Saving

The stylish LCD TV range weighs considerably less than its portable CRT counterpart but also occupies over 65% less surface space, leaving your living area looking less cluttered. They also consume on average, one third less power than the same-sized CRT TV, and have a longer life span, thereby saving you money!
